

Earn Rewards by Referring F One to Other Businesses

At F One, our customers are at the heart of everything we do. A significant proportion of our new business comes from recommendations, which is something we genuinely value.

That is why we created our Referral Scheme. It is a simple way to thank you for introducing other businesses to us and helping spread the word about the service you have experienced.

When someone you refer becomes a customer, you receive a £250 Amazon shopping voucher as a thank you. It is our way of showing appreciation for your trust and support.

Refer a Business

If you know another business that could benefit from reliable communications, simply introduce us. We will take care of the rest and keep you informed along the way. There is no complicated process, just a straightforward introduction by email or phone, and we will handle everything from there in a professional and respectful way.

They Become a Customer

We meet with them, take the time to understand their requirements, and provide a tailored solution that suits the way they work. There is no obligation for them to proceed. We will handle the full journey from initial consultation through to installation, setup, training and ongoing support.

You Receive £250.00

If they go ahead and become a customer, we will arrange your £250.00 Amazon voucher as a thank you for the introduction. Once their agreement is in place and their services are live, we will confirm your reward and organise it promptly, keeping you updated so you know exactly when to expect it..
